

## RON MAISLIN

I was born in Montreal and attended both High School and College there, my work history began working during the summer months loading and unloading transport trucks. Got tired with the political goings on in Montreal and Quebec, then moved to Toronto.

Got married on June 1st.1969 and secured a position with Beneficial Finance, left them and started working for Canada Revenue Agency and was internally trained on audits and accounting procedure and retired after 32 years. I held many positions there all of which I cannot refer to or talk about.

Since my retirement in 2013 I did nothing for a number of years and then joined the Aurora Seniors Centre and the Optimist Club and worked on many committees all of which made my wife very happy. I have great satisfaction from belonging to the ASA and continue to work forward In helping the ASA moving forward to a bigger and brighter future.
